

COMPANY PROFILE

WELCOME TO SOLUTIONS MERCHANT INVESTMENTS

Welcome to Solutions Merchant a diversified, solutions-oriented enterprise specializing primarily in general wholesale and retail trading, with a strong and growing focus on brokerage business, supply chain management and logistics related solutions. The company operates across multiple commercial sectors, offering integrated trading, brokerage, logistics, and supply chain solutions to businesses, institutions, and partners.

We are positioned as a multi-sector merchant company with the capacity to source, distribute, broker, and manage goods, services, and investments across local, regional, and international markets. While wholesale and retail form the backbone of our operations, our scope is not limited, allowing us to actively participate in real estate, land and property, money and capital markets, transport and logistics, commodity broking, tendering, and strategic partnerships.

OUR VISION

To be a trusted and leading broking company delivering reliable wholesale, retail, and multi-sector business solutions that drive sustainable growth and value creation.

OUR MISSION

Our mission is to provide efficient, ethical, and market-driven wholesale, retail, and brokerage services by connecting producers, suppliers, buyers, and investors through strong partnerships, optimized supply chains, and innovative commercial solutions.

OUR VALUES

Quality

We prioritize excellence in every project, ensuring durability and precision.

Integrity

Upholding honesty, transparency, and ethical conduct

Innovation

Adapting to evolving markets and client needs

Reliability

Delivering consistent, dependable, and timely solutions

Excellence

Maintaining high standards in service, quality, and performance

OUR GOALS

- To establish a strong market presence in general wholesale, retail, and hardware supply
- To expand bulk trading and tender-based supply capabilities
- To diversify revenue streams across property, logistics, and capital markets
- To strengthen supplier and distributor networks
